Abstract

Language is the instrument to enhance the harmony. Papua Island is one of the lands of harmony, interfaith, and ³interreligious society. Therefore, this paper would identify the religious communication in Muslim minority of West Papua. The study applied ²qualitative approach. In-depth interview and observation were conducted to collect data. Research was piloted in West Papua, Indonesia. This paper also highlights Sorong greater area as the pillar to accelerate people from different belief. It was observed that mosque and church are the determinant element to influence the society in accelerating ethnic and religious respect to others. Religious association is the influential institution to portrait the society. In addition, religious diversity is the human capital dimension to play religious localities along the island. Finally, this paper recommends the further research to analyze the main feature of harmony through other aspects

Keywords: harmony, politeness, religious affiliation

Religiosity, Politeness and Diversity: Muslim Minority in Harmony of West Papua
